Values Based Competency Comments (if applicable)
Shilpa is very strong in all of the competencies above. As a Team Player, she has had a key role in on-boarding new team members, providing KT sessions and helping offshore team members with production incidents. Shilpa delivers quality results in her ability to immerse herself into complex technical issues and learn new technologies to provide a solution to the problem at hand. She does this quickly to lessen the impact to the business stakeholders. In her communication, Shilpa should feel empowered to share her ideas/recommendations and influence rather than depend on the team lead.
